⑤SAGE journals

Discoverability Checklist

Let us help you and your patrons get the most out of **SAGE Journals!** Here are our top tips for increasing discoverability of your important content:

Adding SAGE Journals products to your catalog and library websites

☑ List all the **SAGE Journals** products in your A-Z and/or subject directory of databases

☑ Use the recommended production description

- We recommend cataloging **SAGE Journals** as e-journals by individual title – not as a database.

- With more than 50% of SAGE's journals ranked in the 2016 Journal Citation Reports® (Clarivate Analytics, 2017), **SAGE Journals** is host to high-impact, peer-reviewed, and interdisciplinary articles – the heart of your research. Now on a new, user-friendly platform, journals and articles can be searched, viewed, and shared with ease from any device. Article-level metrics – including social media sharing – from Altmetrics and journal-level Impact Factor rankings help students, faculty, and researchers understand the reach and importance of the articles they are citing.

  The **SAGE Journals** portfolio includes more than 1,000 journals spanning the humanities, social sciences, and science, technology, engineering, and medicine. Whether your library needs the full, interdisciplinary collection dating back to volume 1, issue 1, or a specific, focused collection targeted to your researchers' interests, SAGE can help you build the perfect fit.

☑ Appoint a "super user"

- Help your patrons get to grips with the platform by offering resource training
- **Meet our training team ≫**

☑ Place a search widget on your catalog or library website

- **View our full range of search widgets ≫**

☑ Display our **SAGE Journals** poster in your library

- **View all of our downloadable usage driving materials ≫**

Finding SAGE Journals through discovery services and search engines
